VENI
VENETIAN BLINDS

Venì

GAMMA COLORI

La gamma Venì è progettata per adattarsi perfettamente a qualsiasi ambiente grazie ad una vasta scelta di colori eleganti e versatili. La qualità del prodotto è garantita dall'uso di una speciale verniciatura resistente agli agenti atmosferici e dallo spessore della lamella di 0,22 mm che assicura durata, robustezza e un'estetica impeccabile.

COLOURS RANGE

Venì range is designed to fit perfectly into any environment thanks to a wide choice of elegant and versatile colors. The quality of the product is guaranteed by the use of a special weather-resistant paint and the thickness of the slat of 0.22 mm which ensures durability, strength and impeccable aesthetics.

MONOCOMANDO

Venì nelle versioni 16 e 25 mm sono disponibili anche con un pratico azionamento a monocomando a catenella che semplifica l'utilizzo e garantisce un risultato estetico moderno e pulito.

MONOCONTROL

Venì 16 and 25 mm versions are also available with a practical monocontrol chain drive which simplifies use and guarantees a modern and clean aesthetic result.

SAFETY CHILD DEVICE

Venì, sia quelle con azionamento a corda che quelle con sistema mono comando a catena, sono dotate di un dispositivo di sicurezza anti-strangolamento per bambini Child Safety Device.

Questo sistema è conforme alla norma europea EN 13120 che regola i requisiti di sicurezza per tende e veneziane, garantendo la massima protezione per i più piccoli.

SAFETY CHILD DEVICE

Venì, both those with cord operation and those with a single chain control system, are equipped with anti-strangulation safety device for children Child Safety Device.

This system complies with the European standard EN 13120 which regulates the safety requirements for curtains and Venetian blinds, ensuring maximum protection for the little ones.

HOME AUTOMATION

Rendi smart la tua casa controllando la tua tenda con l'interfaccia M2Net di Mottura S.p.a. M2Net è la piattaforma Mottura sviluppata per la gestione ed il controllo dei propri sistemi motorizzati che permette un continuo dialogo bidirezionale tra i dispositivi di comando ed i sistemi motorizzati. M2Net Station è il collegamento di Mottura con il web. Un prodotto "user-friendly", facile da installare e registrare.

HOME AUTOMATION

Be smart controlling your curtain by M2Net interface. M2Net has been developed by Mottura to control its own motorized systems. It allows a continuous two-way dialogue between the transmitter and R.F. receiver integrated in the motorized systems. M2Net Station is the link between Mottura and the web. A user-friendly product, easy to install and record.

Quando la luce del giorno penetra attraverso le lamelle inonda l'ambiente di una luce soffusa, creando una piacevole e calda atmosfera.

When daylight filters through the slats, it floods the room in soft light, creating a pleasant, warm atmosphere.
